Career Objective

Computer Engineering graduate with experience in project coordination and team collaboration. Skilled in using Trello and ClickUp to manage tasks and ensure efficient project delivery. Passionate about learning and growing in project management, committed to supporting teams and ensuring successful project outcomes.

Experience

Project Coordinator, Arba Accelerator, New Panvel   July 2024 – Present

- Assisted in **project planning and coordination** using Trello and ClickUp, contributing to timely milestone achievement.
- Supported **documentation and progress reporting** to enhance project visibility and team collaboration.
- Actively learning project management practices to improve efficiency and contribute to successful project outcomes.

Co-Lead, CodeChef AIKTC Student Chapter, New Panvel   Aug 2024 – May 2025

- Led and organized **coding events, hackathons, and workshops**, promoting CodeChef's initiatives across the campus.
- Mentored and guided **100+ students**, fostering team collaboration and supporting project-based learning.
- Coordinated with faculty and peers to ensure smooth event execution and effective community engagement.

Development Lead, Programmers Club AIKTC, New Panvel   July 2023 – June 2024

- Mentored students on development projects and led **3+ teams** to achieve their technical goals.
- Led and organized **hackathons, events, and workshops**, gaining hands-on experience in planning and coordination.

Skills

Programming & Environments: C, Java, Python, Windows, Linux

Web & Databases: HTML, CSS, React, JavaScript, SQL, MySQL, MongoDB

Development Tools & Methodologies: Git, GitHub, Trello, ClickUp, Google Workspace, VS Code

Core Competencies: Leadership, Team Collaboration, Project Coordination, Documentation, Communication, Time Management

Projects

Fake News Detection using Nature-Inspired Computing   Link

- Led a team to build a hybrid model using **TF-IDF**, **PCA**, and **BGWOPSO** for feature selection on the **ISOT dataset**.
- Managed timelines and evaluated models including **LSTM**, **BERT**, and **XGBoost** using **Accuracy**, **AUC**, and **Kappa**.

AOA Algorithms Visualization Tool   Link

- Built an interactive tool using **HTML, CSS, and JavaScript** to visualize Greedy, Dynamic Programming, and Backtracking algorithms.
- Coordinated the project by managing timelines, delegating tasks, and ensuring smooth collaboration among team members.

Certifications

Oracle Certified Foundations Associate   View Certificate

Google Project Management Certification   View Certificate

Education

University of Mumbai, BE in Computer Engineering   Dec 2021 – June 2025

- **CGPA:** 9.42/10.0

Achievements

- Maintained **top-tier academic** performance
- Organized **Algorithm 7.0, 8.0, 9.0** (300+ participants)
- Led **projects and club activities**, guiding teams to success
- Conducted **technical sessions and workshops** for students
- Served as **General Secretary** at AIKTC Student Council
- Mentored **100+ students** through projects and activities
